PRESS RELEASE **October 26, 2012**

According to Lt. Todd Menmuir, on Friday, October 26, 2012 at 3:05pm the Lake County Sheriff's Office was on patrol and came upon an injury motor vehicle crash. The accident had just occurred on State Route 84 and the on-ramp to SR44 southbound Concord Township, Ohio. Concord Township rescue was summoned to the scene to assist.

The investigation concluded that a 2007 Jeep Commander, operated by Barbara Conrad, a 39 year old female from Geneva, Ohio, was traveling eastbound on State Route 84, approaching State Route 44. Barbara Conrad became distracted when she had dropped a cigarette and had traveled off the right side of the roadway. The Jeep traveled across two lawns striking various landscaping items. The Jeep continued eastbound, off the roadway, and then struck a chain link fence. The Jeep traveled over the chain link fence and then struck the back side of a guard rail that was situated along the on-ramp to SR44 southbound. The Jeep then became air born, off the guard rail, and landed on the on-ramp to SR44 southbound. The Jeep still continued traveling east and then collided with the driver side of a 2010 Chrysler Town and Country Van. The van was being operated by Lisa Summer, a 55 year old female from Concord Twp., Ohio. Lisa Summers had been traveling northbound on Morley Rd. and became stopped at the traffic light at State Route 84. The Chrysler van was struck by the Jeep while the van was stopped, waiting to make a right turn on SR 84. The Jeep and the Chrysler van were pushed into another guard where they came to a final rest.

Barbara Conrad and Lisa Summers were treated at the crash scene by Concord Township Rescue. They were then transported to Tri-Point Medical Center where they were treated and released. Barbara Conrad and Lisa Summers were wearing safety belts at the time of the crash. The airbags in both the Jeep and the Chrysler van had deployed. The Jeep and the Chrysler van sustained severe damages and were towed from the scene.
